

FATHIMA SHAFEEKA

Software Engineer | Full-Stack Developer | UI/UX

Gampaha, Sri Lanka • +94 76 155 8321 • fathimasfq@gmail.com

Portfolio: <https://fathima-shafeeka.github.io/Portfolio/> • LinkedIn: <https://www.linkedin.com/in/fathima-shafeeka/>

PROFESSIONAL SUMMARY

Motivated Software Engineering graduate (First Class Honours, BSc Hons, Kingston University, in partnership with ESOF Metro Campus) with hands-on experience building full-stack web and desktop applications. Proficient in Java, C#, PHP, JavaScript, SQL, and frontend frameworks, with additional expertise in UI/UX design using Figma. Skilled in Agile methodologies, version control, and software development best practices, with a track record of designing and building complete systems from architecture to deployment - including GPS-integrated platforms, e-commerce backends, and database-driven applications. Actively seeking a Junior Software Engineer or Junior Developer role - open to remote and international opportunities globally.

KEY SKILLS

Languages:	Java, C#, PHP, JavaScript, Python (Basic), C++ (Basic), SQL
Frontend:	HTML5, CSS3, JavaScript (ES6+), Bootstrap, Materialize CSS, Responsive Design
React:	Component-based UI, Props & State, Interactive Frontend Applications
Backend:	PHP, Java, C#, REST APIs, Server-side Logic, MVC Architecture
Databases:	MySQL, SQL Server — CRUD, Queries, Relational Design, Schema Design
UI/UX:	Figma, Wireframing, Prototyping, User Flows, Usability Testing
Dev Tools:	Git, GitHub, VS Code, Visual Studio, NetBeans, Eclipse, Leaflet.js
Practices:	Agile/Scrum, Version Control, Debugging, QA Testing, Technical Documentation

SELECTED PROJECTS

Full-Stack Developer | SkillAid — Smart Emergency Volunteer Network

BSc Final Project · 2026 · PHP, MySQL, Leaflet.js, Bootstrap

- Architected and built a complete web-based emergency volunteer coordination platform for Sri Lanka's disaster-prone communities
- Implemented a district-zone proximity algorithm filtering volunteers by skill set, location, and availability in real-time
- Integrated Leaflet.js GPS mapping for live incident visualization and volunteer tracking, with coordinate storage in MySQL
- Conducted the full software engineering lifecycle: stakeholder analysis, 61-response user survey, 8 UML diagrams, 6 functional modules, and SRS documentation
- Delivered a complete system with multi-role authentication (Volunteer / Reporter / Admin) — all 10 test cases passed across functional, usability, and UAT

Full-Stack Developer | Velvet Vogue — E-Commerce Platform

4 weeks · PHP, MySQL, HTML5, CSS3, JavaScript, Bootstrap

- Architected and developed a complete e-commerce web application with product catalog, shopping cart, user authentication, and admin panel
- Built the backend using PHP with MySQL — implemented CRUD operations, session management, order processing, and inventory tracking
- Applied the MVC architecture pattern and clean code principles throughout; built a responsive frontend with Bootstrap

Software Developer | CareConnect — Doctor Channeling System

3 weeks · Java, SQL, Figma, UML Diagrams

- Designed and prototyped a full clinic management system covering patient booking, doctor scheduling, and appointment reporting
- Developed system architecture, data flow diagrams, and an ER schema, alongside complete technical documentation including SRS and test cases
- Implemented the UI in Figma and reduced the booking flow from 7 steps to 3 (40% fewer steps) through iterative prototyping

EDUCATION

BSc (Hons) Software Engineering — Kingston University, UK, in partnership with ESOFTE Metro Campus, Sri Lanka (2025–2026, First Class Honours)
Higher National Diploma — Software Engineering | ESOFTE Metro Campus, Sri Lanka (2023–2025, Merit)
Diploma in Information Technology | ESOFTE Metro Campus, Sri Lanka (2022–2023, Distinction)

KEY COMPETENCIES

• Full-Stack Web Development	• Object-Oriented Programming (Java, C#)
• Database Design & SQL	• REST API Integration & MVC Architecture
• UI/UX Design & Figma Prototyping	• Agile/Scrum Methodology
• Version Control with Git/GitHub	• Remote-Ready & Globally Collaborative

LANGUAGES & AVAILABILITY

Languages: English (Fluent), Tamil, Sinhala | **Availability:** Immediate, Remote/Hybrid/International | **Time Zones:** Flexible (GMT+5:30) | **References:** Available upon request
